### Permit for Driveway Construction

Applicant \_\_\_\_\_

Telephone \_\_\_\_\_

Address \_\_\_\_\_

\_\_\_\_\_

Permission is hereby requested to perform construction within the right-of-way on the public highway known as Town Highway # \_\_\_\_\_ known as \_\_\_\_\_ Road/Street.

The undersigned agrees that the construction will be accomplished in a manner which does not affect the grade of the highway, obstruct the ditch, culvert or drainage course that drains the highway, or divert the flow of water onto the highway right-of-way unless specifically permitted to do so as noted herein.

The undersigned further agrees that a 15" culvert minimum, if at all necessary, will be used in the present ditchline, that the driveway to be constructed will enter the right-of-way at an elevation not higher than that of the shoulder of the highway, and that the driveway to be constructed shall not exceed 5% grade per 20 feet from the edge of the traveled portion of the road, and the angle that the driveway enters the road shall be determined by the Selectboard who, in their determination, will be guided by safe and practical ingress and egress to the town highway.

Culvert inlets and outlets will have headwalls constructed, if necessary, that will alleviate the washing of driveway gravel into the Town ditchline.

The undersigned also agrees to maintain the crown of driveway in such a manner that will direct water flows to driveway ditchlines which will alleviate the washing of driveway materials onto town highways.

The undersigned agrees to contact the Rochester Highway Department at least 3 days prior to construction, and again upon completion of construction.

It is the responsibility of applicant to furnish all traffic control necessary to complete this construction project in a safe and responsible manner.

Diagram and description of construction to be performed (use separate sheet if necessary)
